CONFIDENTIAL

25X1A

Comment: The quantities classified as reserve must be made available again in each quarter.

25X1A

Comment: This report tends to contradict Soviet statements that local requisitioning of food supplies has ceased.

25X1A

Comment: The copy of the document on which this report is based is entitled "Supply Plan of the Red Army for the First, Second, and Third Quarter of 1949" and bears the date 23 September 1949. It is not clear whether this is a mistake and should read 23 September 1948 when the plan was possibly made up, or whether it is the date when the report was copied. At any rate, 23 September 1949 is too early a date to include totals of actual deliveries made during the third quarter of 1949. It seems more likely, therefore, that the above report refers to planning figures for rather than supplies furnished by Thuringia.
